

## **REMARKS**

The applicants are submitting a Supplemental Amendment to the Notice of Allowance based on an Examiner Interview between Examiner Shashi Becker and the applicants' representative, Katrina Lyon, on July 10, 2008. The Examiner stated that the amendments in the last Amendment under 37 CFR 1.312 to all but Claim 29 were fine and expressed concern with the "being capable of" amended language of Claim 29. The applicants agreed to remove this language from Claim 29, although it is not believed that this language changes the scope of this claim. The applicants request the above amendments be entered to correct antecedent basis and tense issues, as well as punctuation, with respect to Claims 1, 16 and 28. More specifically, there is no antecedent basis for "the user" in these claims and the tense for some of the additions in the claims do not match with the preamble (for example, as to Claim 28, "said computer executable instructions operable to...selecting", should be "said computer executable instructions operable to:...select"). As to Claim 29, the applicants have amended this claim in order to better describe the claimed graphical user interface and to eliminate an extraneous period in the middle of the claim.

If the Examiner has any questions or concerns, the applicants invite the Examiner to call the applicants' representative at 805-278-8855.

Respectfully submitted,  
/Katrina A. Lyon/
